

LEARNING SOLUTIONS TO ADDRESS CRITICAL WORKFORCE SKILLS GAP CHALLENGES

CUSTOMIZABLE COURSE PACKAGES

FedLearn is partnering with BizLibrary to offer specially curated packages of online courses to our customers.

We will collaborate with you to design the *ideal package* of 50 or 200 self-paced, online courses from 1,000s of options to address your organization's most urgent workforce development needs in:

- **Data science** (e.g., Python, R, statistics)
- **Information technology** (e.g., AWS, agile, programming, cloud computing and cybersecurity)
- **Leadership and management** (e.g., emerging leadership fundamentals, leading change and team building)
- **Project management** (e.g., PM collaboration and communication and PM Professional certification exam preparation)

Our customizable, turnkey learning solutions are perfect to meet the upskilling and reskilling needs of small- and medium-sized government contractor companies. They are flexible, easy to implement and affordable.

Best of all, the courses are delivered via FedLearn's artificial intelligence-powered learning platform so customers can take advantage of our advanced learning metrics and unique online learning experience.

Contact us to learn how FedLearn and BizLibrary can elevate your employee professional development program in support of mission or business success.
