FedLearn

TRANSFORMING LEARNING
FOR DEFENSE AND INTELLIGENCE ORGANIZATIONS

ACCELERATING WORKFORCE READINESS

FedLearn provides adaptive online learning solutions—enabled by artificial intelligence—to deliver specialized and contextualized courses and content that directly support Department of Defense and Intelligence Community mission areas.

Our adaptive learning platform leverages the power of AI to *personalize the user experience* and *offer content that optimizes knowledge retention and skills acquisition* to **enhance the operational readiness and effectiveness of your workforce**.

Our AI tailors content based on individual learning styles and knowledge gaps to ensure your workforce receives the most relevant and effective online training experience—crucial in mission-critical environments.

Only FedLearn can answer **three critical questions**:
- *Are my learners learning?*
- *Are my learners engaged?*
- *Which of my learners are experiencing challenges with course content?*

No other learning provider to the government and government contractor markets offers these cutting-edge capabilities.

KEY BENEFITS

Personalized to address individual needs of learners

Contextualized content for faster time to proficiency

Cost-effective to accommodate budgets of all sizes

Scalable to meet the needs of any organization

Agile to address changing mission requirements

ADVANCED LEARNING OUTCOMES

Our AI is powered by 250+ patented, predictive algorithms that track and analyze user behaviors to identify individual learning styles.

The AI detects the level of **knowledge transfer** *(to answer the first critical question)*. It also determines the level of **learner engagement** *(to answer the second critical question). Both metrics are available in real time.*

*W*hen the AI discerns learner challenges while in courses or other content, **personal remediation** kicks in. Additional snippets of information are provided to assist with learner comprehension *(to answer the third critical question)*.

Pilot participants who received personalized remediation scored *27-percent higher* on post-pilot assessments than those who did not.

Our AI also **reduces learner knowledge acquisition time**—*accelerating understanding and reducing time to proficiency.*

Recent AI/data course pilots demonstrated a *33.7-percent improvement i*n participant pre- and post-pilot assessment scores.

COURSE CATALOGS

- **AI**
- **Data**
- **The IC**
- **Information technology**
- **Leadership and management**
- **Project management**
- **Quantum**
- **Space** *(launching soon!)*
- **Spectrum warfare**

We develop our own courses and partner with a growing community of brilliant defense and IC thought leaders, data scientists, academicians and other professionals at the pinnacle of their respective fields to offer relevant courses and content of the highest quality to our customers.

OTHER LEARNING SOLUTIONS

FedLearn is an aggregator of great content and a hub of innovation. We deliver an expanding portfolio of additional learning solutions to address the critical mission and business requirements of our customers.

- **Microlearning.** We offer "bite-sized" certificate-based courses on a wide variety of timely topics designed to transfer knowledge in a matter of minutes.
- **Clearinghouse of publicly available content.** We provide a rapidly expanding clearinghouse of 1,500+ unclassified, online resources on timely and crucial defense, intelligence, AI, data and emerging technology topics at no cost in support of learner journeys with us.
- **Personalized courses.** We develop and deliver course curricula that are personalized to the unique needs of customer workforces.
- **Course hosting.** We host customer courses and content available to their learner cohorts exclusively or open to our entire learner community.
- **Curated packages of courses.** We partner with BizLibrary to offer customizable course packages in IT, leadership and management and project management. Our team will collaborate with you to design the perfect package to meet your organization's most pressing upskilling and reskilling needs.

Company Designations

- **Service-Disabled Veteran-Owned Small Business**
- CAGE Code: 8JZQ2
- DUNS Number: 117482829

NAICS Codes

- 611420 – Computer Training
- 611430 – Professional & Management Development Training (Primary)
- 611710 – Educational Support Services
